Denton, TX, 76201, 940-594-7566| anivchakravarty@gmail.com, LinkedIn: www.linkedin.com/in/aniv-chakravarty, Github: <https://github.com/AnivChakravarty>

EDUCATION

University of North Texas / Denton, Texas	
Doctorate Computer Science and Engineering	Expected 2028
Current GPA: 3.950 out of 4	
Relevant Course Work: Digital Image Processing, Advanced Pattern Recognition	
University of North Texas / Denton, Texas	
Master of Science Artificial Intelligence	Graduated 2023
Current GPA: 3.909 out of 4	
Relevant Course Work: Machine Learning, Deep Learning, Software Development in AI, Empirical Analysis	
Ramaiah Institute of Technology / Bengaluru, India	
Master of Technology Computer Science and Engineering	Graduated 2019
GPA: 8.43 out of 10	
Relevant Course Work: Big Data and Analytics, Cloud Computing, Natural Language Processing	
Nitte Meenakshi Institute of Technology / Bengaluru, India	
Bachelor of Engineering Computer Science and Engineering	Graduated 2015
GPA: 9.16 out of 10	
Relevant Course Work: Data Structures, Analysis and Design of Algorithms	

TECHNICAL SKILLS

Software: Visual Studio |Anaconda|PyCharm|Jupyter|Git |Octave|VMware Workstation |Microsoft Office Suite (Excel, Outlook, PowerPoint, Word)|Android Studio **Programming Languages:** Python (Intermediate)|R(Beginner)|C#(Beginner)|Java(Beginner)|C(Beginner)|C++(Beginner)|SQL (Beginner) **Operating Systems:** Windows |Linux |MacOS |Android

ENGINEERING PROJECTS

Bee Box Detection	academic
	Dec 2024-Current
<ul style="list-style-type: none">• Detecting small objects and bee boxes in remote sensing images.• Publications: https://doi.org/10.1016/j.eswa.2025.131061	
Deep Learning based crop field irrigation mapping	academic
	Jan 2022-Dec 2024
<ul style="list-style-type: none">• Using USDA NAIP aerial imagery for crop field irrigation type landcover mapping through semantic segmentation	
Unsupervised Abstractive Summarization using Recursive Neural Network with Attention Mechanism	academic
	Oct 2017-Sep 2019
<ul style="list-style-type: none">• Utilized DUC 2001 and 2002 Dataset along with tensorflow, keras, textgenrnn, nltk toolkit, wordnet libraries in python using the spyder IDE to perform abstractive text summarization using a recurrent neural network implementing a mechanism to hold attention on certain important keywords to improve context while reducing word length.• Publications: https://doi.org/10.1166/jctn.2020.8976	
Optimization of Routing in a Distributed Sensor Network using Heuristic Techniques	academic
	Sep 2014 – April 2015
<ul style="list-style-type: none">• Project included a 4 person team which used network simulator 3 with C++ to improve routing of distributed sensors using genetic algorithm as the heuristic• Programmed and debugged the code to ensure the project met given requirements and quality standards	

EMPLOYMENT EXPERIENCE

IBM, System Administrator , Bengaluru, KA, India	Jul 2015- Sep 2017
● Administered IT support, AS\400 and the IBM iSeries platform support through terminal based CL language, data storage, cyber security and automation.	
UNT, Graduate Research Assistant , Denton, TX, USA	Jan 2022- Jul 2023
● Worked under Dr. Lu Liang in the Institute of Applied Sciences on the Irrigation Classification project that makes use of deep learning neural networks and image processing of aerial NAIP images. Learned to utilise ArcGIS Pro, Image pre-processing and complex model design for handling image classification and storage with large datasets. This is done in python with integration of tensorflow, keras, json, and geo image processing libraries.	
UNT, Graduate Teaching Assistant , Denton, TX, USA	Aug 2023- Dec 2024
● Worked as a teaching assistant in CSE department for courses covering NLP, data structures, software development in AI	
UNT, Graduate Research Assistant , Denton, TX, USA	Dec 2024- Jul 2025
● Worked under Dr. Xiaohui Yuan to detect small bee boxes on remote sensing images. Evaluation of popular state of the art methods on SkySat and google earth images.	
UNT, Graduate Teaching Assistant , Denton, TX, USA	Aug 2025- Current
● Working as a teaching assistant in CSE department for courses covering data mining	

INTERNSHIP

Intel , Intern , Bengaluru, KA, India	Jul 2018 - Jul 2019
● Developing User Interface in C# employing Visual Studio and display hardware details interfacing on windows	

● Provide validation testing and customer engineering support in the areas such as integrated graphics and programming.

PROFESSIONAL EXPERIENCE

Volunteered in local research conference Pradarshana-2018
 participated and presented in research conference ICRITCSA-2019
 poster presentation in CSE Department “Visions of AI” and Open Day
